

MultiTherm's Coil Selection & Rating Program Heat Transfer Fluid Catalog

CONTENTS AND INSTRUCTIONS

You have just downloaded or received the newest version of the **MultiTherm Coil Selection and Rating Program**. We have designed it to be user friendly and to establish selections and ratings on our coils that are correct and easy to understand. If you should have any questions about our coil line or the selection process then please contact us at 800-339-7991.

You have just downloaded or received the newest version **HEAT TRANSFER CATALOG** which includes all our non-hazardous and non-toxic Heat Transfer Fluids since 1977. Within a temperature range of 10_°F to 600_°F

INSTALLATION INSTRUCTIONS

Online Download: The program is on zip file. After the program download is complete, unzip the file and selected autorun.bat, it **will load on Internet Explorer**. The Coil Selection Program & Heat Transfer Fluid Catalog will show up on one screen. When using browsers other than Internet Explorer (Chrome and Firefox). You may receive an error message when attempting to access the Coil Selection Program. This issue can be circumvented however, by **opening the "coils" folder** and then running the **MultiTherm NP.msi** file within this location independent of the web browser. The program will then auto-run and install as is described below:

Copy of Disk By Mail: Program is auto-run. Install disk in your computers CD drive & follow instructions on the screen. Please note that if there is a previous version of the program on your hard drive. You must delete the previous version before you install the new version. To delete the old version, click on START, select SETTINGS, select CONTROL PANEL, click on icon for ADD OR REMOVE PROGRAMS, find MultiTherm and click on REMOVE.

MultiTherm Coil Selection and Rating Program.

Performance Rating – Give you performance of a coil when you input face area, rows, fins/inch construction, and circuitry. Usually used for replacement or duplicate coils where the coil has been previously built.

Selection – Gives you the “best selection” based on the user providing face area, entering & leaving conditions & coil construction to establish the proper rows, fins & circuitry.

From the desk top, click on the MultiTherm icon & you will get main menu screen.

Open File – opens a previously saved file for any previous selections that you have made and “saved”.

Water Coil thru Boosters – select the type of coil that you want to run, and click on icon.

General information tab – Provides any general information that you require to identify the project.

MultiTherm REPLACEMENT COILS®
YOUR HEAT TRANSFER NEEDS ARE OUR ONLY CONCERN

Coil input tab – You provide all input information for either a selection or a rating. If you use “auto-select” for rows, fins & feeds, you will get the “best selection”. If you provide your own rows, fins & feeds, you will get the performance rating for the coil.

Performance tab – click on this tab to receive desired performance from your input.

Dimensions tab – click on this tab to receive a drawing on the coil that you selected. Please note that you must get a performance before you can get a coil drawing.

Replacements – will give you instructions for replacing any coil and appropriate coil drawings. Click on the appropriate type of coil that you want to replace and you will get:

*form cc-100 (fill out & fax to MultiTherm LLC at 610-408-8365)

*a coil drawing

*instructions

Help – explains most of the things that you need to know to run the program. Also provides definitions of everything in the program under the “index” tab.
